

Editando produto

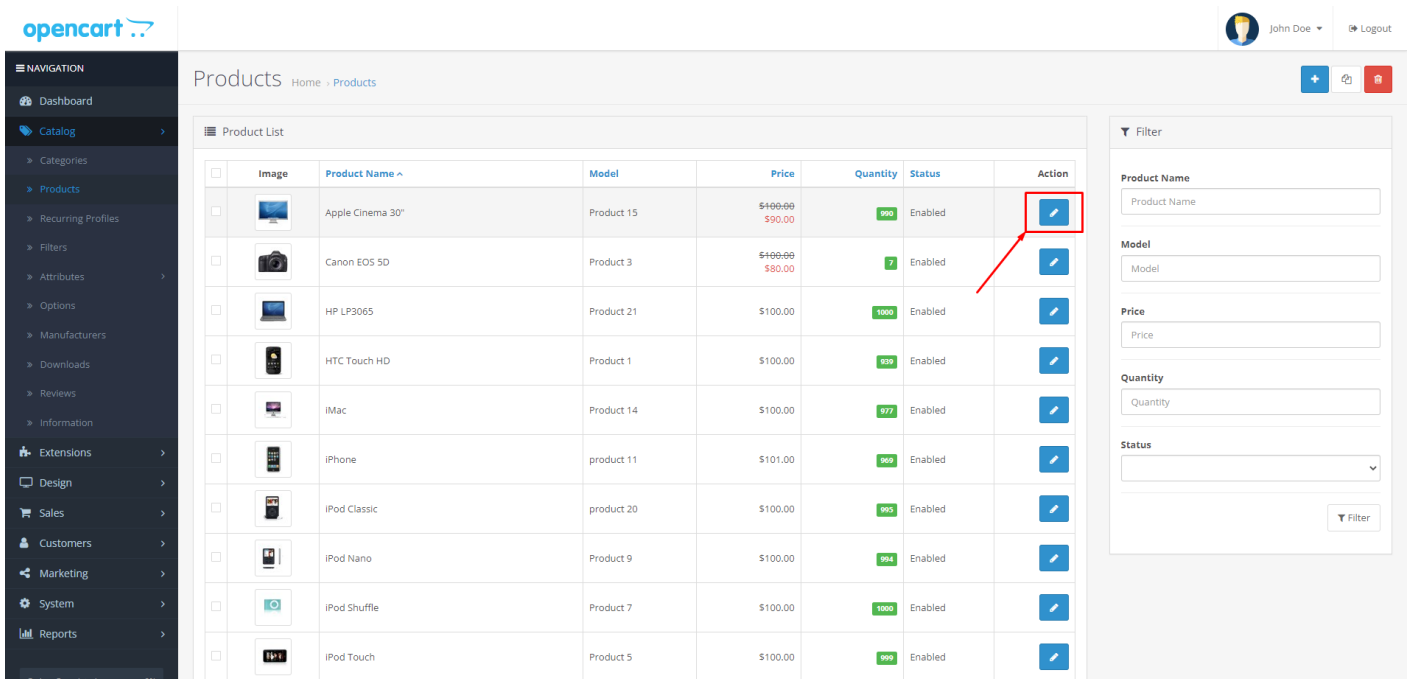

Para edição de produtos, faremos parecido com a criação, iremos na aba de Catalogo e em Produtos:

The screenshot shows the OpenCart dashboard. On the left, the 'NAVIGATION' menu has 'Catalog' and 'Products' highlighted with red boxes. The main dashboard area displays several key statistics: 'TOTAL ORDERS' (1), 'TOTAL SALES' (106), 'TOTAL CUSTOMERS' (0), and 'PEOPLE ONLINE' (0). Below these are a 'World Map' and a 'Sales Analytics' chart. At the bottom, there is a 'Recent Activity' section with 'No results!' and a 'Latest Orders' table.

Order ID	Customer	Status	Date Added	Total	Action
1	Almir Teste	Pending	07/07/2022	\$106.00	

Em seguida, basta clicar no ícone de lápis (editar):

The screenshot shows the OpenCart 'Products' page. The 'NAVIGATION' menu on the left has 'Products' highlighted with a red box. The main area displays a 'Product List' table with columns for Image, Product Name, Model, Price, Quantity, Status, and Action. The 'Action' column contains edit icons (pencil icons), with one icon highlighted by a red box and a red arrow pointing to it. On the right, there is a 'Filter' sidebar with input fields for Product Name, Model, Price, and Quantity, and a dropdown for Status.

Image	Product Name	Model	Price	Quantity	Status	Action
	Apple Cinema 30"	Product 15	\$400.00 \$90.00	990	Enabled	
	Canon EOS 5D	Product 3	\$400.00 \$80.00	7	Enabled	
	HP LP3065	Product 21	\$100.00	1000	Enabled	
	HTC Touch HD	Product 1	\$100.00	999	Enabled	
	iMac	Product 14	\$100.00	977	Enabled	
	iPhone	product 11	\$101.00	999	Enabled	
	iPod Classic	product 20	\$100.00	995	Enabled	
	iPod Nano	Product 9	\$100.00	994	Enabled	
	iPod Shuffle	Product 7	\$100.00	1000	Enabled	
	iPod Touch	Product 5	\$100.00	999	Enabled	

Após isso, basta realizar as alterações e clicar para salvar após concluído:

The screenshot displays the OpenCart admin interface. On the left is a dark navigation sidebar with the 'opencart' logo at the top. Below the logo, the 'NAVIGATION' menu includes: Dashboard, Catalog, Products, Recurring Profiles, Filters, Attributes, Options, Manufacturers, Downloads, Reviews, Information, Extensions, Design, Sales, Customers, Marketing, System, and Reports. At the bottom of the sidebar, it shows 'Orders Completed: 0%'. The main content area is titled 'Products' and 'Home > Products'. A red box highlights a save icon in the top right corner of the main area, with a red arrow pointing to it. Below this, the 'Edit Product' form is visible, with tabs for 'General', 'Data', 'Links', 'Attribute', 'Option', 'Recurring', 'Discount', 'Special', 'Image', 'Reward Points', 'SEO', and 'Design'. The 'General' tab is active, showing a language selector for 'English'. The 'Product Name' field contains 'Apple Cinema 30\". The 'Description' field has a rich text editor with the following text: 'The 30-inch Apple Cinema HD Display delivers an amazing 2560 x 1600 pixel resolution. Designed specifically for the creative professional, this display provides more space for easier access to all the tools and palettes needed to edit, format and composite your work. Combine this display with a Mac Pro, MacBook Pro, or PowerMac G5 and there's no limit to what you can achieve. The Cinema HD features an active-matrix liquid crystal display that produces flicker-free images that deliver twice the brightness, twice the sharpness and twice the contrast ratio of a typical CRT display. Unlike other flat panels, it's designed with a pure digital interface to deliver distortion-free images that never need adjusting. With over 4 million digital pixels, the display is uniquely suited for scientific and technical applications such as visualizing molecular structures or analyzing geological data. Offering accurate, brilliant color performance, the Cinema HD delivers up to 16.7 million colors across a wide gamut allowing you to see subtle nuances between colors from soft pastels to rich jewel tones. A wide viewing angle ensures uniform color from edge to edge. Apple's ColorSync technology allows you to create custom profiles to maintain consistent color onscreen and in print. The result: You can confidently use this display in all your color-critical applications. Housed in a new aluminum design, the display has a very thin bezel that enhances visual accuracy. Each display features two FireWire 400 ports and two USB 2.0 ports, making attachment of desktop peripherals, such as iSight, iPod, digital and still cameras, hard drives, printers and scanners, even more accessible and convenient. Taking advantage of the much thinner and lighter footprint of an LCD, the new displays support the VESA (Video Electronics Standards Association) mounting interface standard. Customers with the optional Cinema Display VESA Mount Adapter kit gain the flexibility to mount their display in locations most appropriate for their work environment.' Below the description, the 'Meta Tag Title' field contains 'Apple Cinema 30' and the 'Meta Tag Description' field contains 'Meta Tag Description'.
